

LSI Tissue Processing Facility

Policy on Access to the facility

April 2011

The LSI TP is housed in room 3455 up on research floor 3. The facility is currently solely for the use of LSI members. Access to the facility requires a key card access through the elevator up to the research floor and a key to get inside the TP room.

1. The LSI Tissue Processing Policy is currently only available to LSI members on an 'open' 24/7 access.
2. Current Clients can book the equipment anytime during the week however technical support is only available 8:30 am – 4:30 pm, Monday through Friday.
3. LSI members who already have an LSI key card can request additional access to the LSI TP which will be added to their existing key cards.
4. The key to get inside the TP rooms is inside the lockbox installed on the wall outside the rooms. The combination of the lock will be provided by LSI staff once the 'unsupervised access' of the client has been confirmed.
